FDA Commissioner Jane Henney

Docket No. 00P-1211/CP1

FDA Dockets Management Branch (HFA-305)

5630 Fishers Lane, Room 1061

Rockville MD 20852

We are writing to today to voice our concern over the propaganda posing as a "citizen petition" that seeks FDA to impose a moratorium on genetically engineered (GE) foods, FDA Docket #00P-1211/CP1.

What a fraud the radical, fringe group, Sustain: The Environmental Information Group, which has concocted this cockamamie petition, is attempting to pull over the Food and Drug Administration!

Their proposed moratorium -- we strongly believe -- would indiscriminately violate the Fifth Amendment rights under the U.S. Constitution of all of the developers of genetically engineered foods by depriving them of their property rights without due process of law.

Our Founding Fathers took property rights as seriously as free speech and other natural rights.

You would make them proud by resisting the petition's arbitrary and capricious call for a moratorium on all of these food products.

Yours Truly,

Mr. Gene J. Koprowski

Chairman

Citizens' Committee for Natural Rights

### An Important Note About E-Mail

Many offices use an automated system to confirm receipt of e-mail messages. If the message you receive does not mention the subject of your comment, it does not mean your message hasn't been sent or read. However, as with any communication, some offices will only reply to comments from their own constituents. The automated reply you receive should indicate how that office handles e-mail correspondence.
